

Application instructions

Thank you for your interest in applying for a medicare supplement plan from Humana.

In order to comply with state insurance commission requirements and approvals for submitting an application to Humana, we are allowed to provide you with a copy of an application in a few different ways. All methods require you to speak with a licensed insurance agent as part of completing the application:

1. Agent completed application – We can speak with you on the phone and ask you all of the questions on the application and complete all portions of the application except those places where you need to sign it. We can either email the completed application back to you via secure email, fax it or mail it to your home while including a return envelope.
2. Client completed application – We can email, fax or mail an application to you and then you can complete the application yourself while speaking to a licensed agent on the phone. Once completed you can return the application to us for review and then submission to the carrier for underwriting and approval.

****Note:** Please let us know which company you want to apply for and for which State.
